ELECTRO EXPO 2018 – POWERING INNOVATION & TECHNOLOGY **Product Achievement Awards**

The Electro Expo 2018 Achievement Awards Program provides a unique opportunity for industry recognition of professionalism, ingenuity and originality in the power, lighting, low voltage systems and clean energy areas, based upon the individual merit of each entry judged against specific criteria.

Judges are selected from a broad professionalism spectrum that represents knowledge industry excellence. This program is not a competition, but recognition of a company's devotion to product superiority and customer satisfaction.

Best Energy Saving/Clean Energy Product

This award will be given to a company that has made the contribution of an energy saving/clean energy product with the highest standards.

Best Lighting Product

This award is open to any company that has demonstrated excellence in the development of a lighting product in 2017.

Best Power Product

To be awarded to a company which has the most distinguished power product in 2017.

Most Innovative New Technology

An award given for demonstrating excellence through superior implementation of a new technology tool or through an innovative approach to the use of new technology.

Best Support Service Product

This award will be presented to the company deemed to have the most effectively utilized the product of support service.

Best Low Voltage Systems Product

Awarded to a company that has developed the most innovative and unique data communication product in 2017.

Best Overall Product

An award presented to a company with a product that represents outstanding characteristics in the areas of power, lighting, low voltage systems and clean energy.

Information available online: www.electroexpo.org

Entries must be received by February 9, 2018 to be considered for Achievement Award Recognition.
